

TECHNICAL DATA

Drill-Terge™

Drilling Detergent/Wetting Agent

- Description:** Drill-Terge™ is a liquid solution of nonionic surfactants formulated to increase detergency and wetting properties of drilling fluids.
- Recommended Use:** Designed to control interfacial tension and inhibit the hydration and dispersion of clay and shale.
- Characteristics:**
- Reduces torque and drag associated with drilling in swelling clays.
 - Assists in keeping the drill bit clean and prevents bit balling.
 - Promotes settling of clays at the reserve pit/tank.
 - Designed to work in fresh or salt water.
 - Mixes very easily.
- Mixing and Applications:** Add 2-3 quarts of Drill-Terge™ per 100 gallons of existing bentonite drilling fluid.
- Packaging:** 5-gallon pails, 30 pails per pallet, or 55-gallon drums. All pallets are plastic-wrapped.
