

ALLCO CLOTH TAPE - ALLSHEET

HIGH PERFORMANCE TAPE

Polyethylene coated cloth tape
Thickness: 0.26 mm

TAPE STRUCTURE:

Polyethylene Plastic Coating - either in gloss or matt formulations (Providing moisture & abrasion resistance).

Rayon fabric cloth backing - longitudinal & cross weave mesh construction (Extra strength).

Natural Rubber Resin Adhesive – cross linked for superior holding power & overall performance.

BENEFITS

- Premium cloth backing construction – extra strength in the weave construction.
- Natural Rubber adhesive technology using high performance cross linked adhesives.
- Excellent conformability, moisture resistance, high tensile strength & easy hand tear.
- Cross linked Rubber Adhesive provides improved bonding & holding power
- High strength 55 mesh Cloth scrim construction
- Hand tearable & easy off the roll
- Used in construction / building,
